Mr. Collins has also worked for many years as an independent 2.5G, 3G and IP technology consultant for Tier 1 service providers around the world and has worked. According to Mr. Collins, the ISP market is expected to grow rapidly in the coming years. The Internet communications market will grow at an average rate of 9.1 percent a year this year and double by the end of the next period, Mr. Collins said. This, combined with an increase in the number of users, will lead to an increase in the number of operators and increased competition. "Internet service providers will experience competition for market share," says Mr. Collins.
